RE: 5/043/010 Henefer Mine
5/043/011 Henefer Stockpiles

In June of 1989 I met with Scott Johnson of your office on site at our Henefer Mine to discuss the permit application process. At the time we were considering the possibility of reopening this property, which had been inactive since the mid 1960's. The permit application was completed and sent to your office. Within the following week we negotiated an agreement with Interstate Brick to purchase this type of clay from their stockpiles. I called Scott to tell him we would not be reopening the Henefer Pit and to remove our permit application from the file. At this point in time we still have no plans to reopen this pit and feel we do not need an operating plan and/or state permits.

It is our assumption that these mine numbers were issued accidentally due to an oversight on your part and we wish to have this property placed back in the inactive, not operational status.

Thank you.

Sincerely,
INTERPACE INDUSTRIES, INC.
